The School of Kinesiology and Physical Activity Sciences at the Université de Montréal, a recognized leader in the field of Kinesiology, is continuing its recruitment campaign. We invite applications for an Assistant, Associate or Full Professor to join the School of Kinesiology and Physical Activity Sciences within our research stream: *Psychosocial aspects and promotion of physical activity and sport*. For further information regarding our School, please visit our website (https://eksap.umontreal.ca/recherche/).

As a Professor, you will have the opportunity to contribute to the excellence of the School of Kinesiology and Physical Activity Sciences.

The candidate will have the opportunity to develop collaborations within the School of Kinesiology and Physical Activity Sciences, as well as with researchers from other Departments and Schools within the Faculty of Medicine, including its affiliated hospitals and research centers. As a Professor in the School of Kinesiology and Physical Activity Sciences of the Faculty of Medicine, the successful candidate will be expected to:

» Develop a successful and innovative research program that focuses on one or more of the following areas: physical activity promotion, psychology of sport and physical activity, physical activity and mental health, physical activity and social inequalities, and psychosocial aspects of sport injuries;
» Have a translational research program that is expected to complement the work of Professors within the *Psychosocial aspects and promotion of physical activity and sport* research stream, as well as the broader School of Kinesiology and Physical Activity Sciences;
» Teach courses at the undergraduate, Master’s, and Ph.D. levels;
» Supervise Master’s (thesis and non-thesis) and Ph.D. students;
» Contribute to service within and visibility of the School of Kinesiology and Physical Activity Sciences.

To succeed in this role, you will need:

» A Ph.D. in Kinesiology, Exercise Science, or a related field, and have significant career experience in the area of interest;
» A strong history of achievements in the field of kinesiology, exercise science, or a related field;
» A strong track record of research funding (nationally and internationally) and research productivity (peer-reviewed publications in leading journals);
» A track record of knowledge translation activities (conference presentations, guidelines, community engagement, patents, etc.).
To demonstrate evidence of your teaching excellence at the undergraduate and graduate levels, including the development of courses in line with research expertise;
To have previous experience mentoring postdoctoral fellows, research assistants, and other highly qualified personnel;
To have made substantive contributions to service at the University level;
Adequate knowledge of the written and spoken French language or a strong commitment to mastering the proficiency level required in accordance with Université de Montréal’s Language Policy. An institutional learning support program is offered to all professors wishing to learn French or improve their communication skills.

How to submit your application

We invite you to submit 1) a cover letter outlining your interest in the position, career goals, as well as any factors which may have affected your career development, 2) supporting documents that demonstrate the quality of your teaching, 3) your CV, 4) a copy of your diplomas, 5) three key peer-reviewed publications and 6) the names of three referees to:

Mme Nadine Eba, TCTB

**DIVERSITY AND INCLUSION**

Université de Montréal is strongly committed to fostering diversity and inclusion. Through its Equal Access Employment Program (EACP), UdeM invites applications from women, Aboriginal people, visible and ethnic minorities, as well as persons with disabilities. We will –confidentially – adapt our recruitment mechanisms to the specific needs of people with disabilities who request it.

UdeM embraces a broad and inclusive definition of diversity that goes beyond applicable laws, and therefore encourages all qualified individuals to apply, regardless of their characteristics. However, in accordance with Canadian immigration requirements, priority will be given to Canadians and permanent residents.

In order to measure the impact of its equity, diversity and inclusion actions, UdeM is collecting data on applicants identifying themselves with one of the groups targeted by the Equal Employment Opportunity Act, namely women, Aboriginal people, visible minorities, ethnic minorities and people with limitations. To this end, we thank you for completing this self-identification questionnaire. The information you provide through this form is strictly confidential and will be shared only with those responsible for the UdeM EAEP. If you wish, you may also indicate that you belong to one of the targeted groups in your cover letter, which will be reviewed by the selection committee and the assembly of peers.

Université de Montréal’s application process allows all members of the Professor’s Assembly to review the application files submitted. If you wish to keep your application confidential until the shortlist is established, please mention it in your application.
